ABOUT US

Founded in Since 1987, PCM has been a leading provider of IT products, services and solutions to businesses, government agencies, education institutions and healthcare organisations. In 2017, PCM expanded into the UK market and subsequently acquired Stack Group and Provista UK. Both organisations hold ISO 9001 accreditations, along with ISO 27001 and ISO 14001 respectively. These leading Business IT Solutions Providers further enhanced PCM UK's expertise and vendor accreditations, and allowed us to offer additional consultancy, integration and supply of services and solutions to strengthen our vision to be the UK partner of choice for digital transformation and cloud services. With powerful in-house eProcurement tools, 2 UK based data centres, a 24x7x365 Global Service Desk and a dedicated team of expert staff, the PCM UK Group provide a comprehensive range of Managed and Professional Services. The combined businesses are focused on delivering best in class solutions to their customers across Data Centre, Cloud, Digital Workplace, Networking and Security. From our office locations within the United Kingdom, the United States, Canada, and the Philippines; PCM can provide a world class service to customers in the UK, EMEA and Globally.
