FILEMAKER PRO 12 ADVANCED
Advanced development and customization tools

FileMaker® Pro 12 Advanced includes all the features in FileMaker Pro 12 plus a suite of advanced development and customization tools. Design and develop more powerful and flexible database applications for yourself and your group.

New Features

Get all these features that are new to both FileMaker Pro 12 and FileMaker Pro 12 Advanced:

- **New!** Eye-catching themes
  Apply one of 40 stunning new themes to instantly change the look of your database.

- **New!** More layout tools
  Use new gradients, image slicing, and alignment guides to get the design precision you need.

- **New!** All-new Starter Solutions
  Manage projects, content, estimates, and more with re-designed solutions — now with layouts for iPad and iPhone.

- **New!** Enhanced container fields
  Drag and drop files into your database, render images faster, and securely store and manage data externally.

- **New!** Quick Charts
  Create eye-catching charts in a just a few clicks with the new integrated set-up and customization window.

- **New!** iOS design and development tools – Get design tools, themes, scripts, and calculation functions to help you quickly build apps for iPad and iPhone.

Create stunning databases

FileMaker® Pro 12 is the fastest way to create stunning databases for you and your team. Now you can quickly build solutions that are crisp, clean and make you more productive than ever.

Instantly change the look of your layout by applying one of 40 stunning, new themes specifically designed for your iPad, iPhone, and desktop. Each theme comes with pre-defined fonts, colors, and object styling. Just a few clicks and your layout has a professional, new look.

Get new built-in design tools to more easily tailor your layouts the way you want. Use rulers, guides, and grids to get the precision you need. Select gradients, transparencies, and image slicing to further customize your layouts.

Display interactive states in objects such as hover, pressed, or in focus. And if you don't like the changes you've made, undo your changes multiple times — so you can experiment with your layouts as much as you'd like.

Design and develop databases faster and easier

Customize your database application even more by renaming, adding, or deleting menu and toolbar items with Custom Menus. Create standalone, runtime applications that don't require users to have FileMaker Pro.

Debug and troubleshoot more efficiently

Pinpoint problem areas by reviewing scripts step-by-step in the Script Debugger. Monitor fields, variables, expressions, and even test calculation formulas with the Data Viewer, as well as temporarily disable script steps to test portions of your scripts.

Modify and maintain with ease

Update databases faster by importing multiple tables or by using copy/paste to move fields, tables, scripts, and script steps. Get comprehensive information on database schema and options, like fields, Web Viewers, layouts, Custom Menus, and more with the Database Design Report.

Minimum Requirements

Windows 7† 1 GHz or faster, 1GB RAM, 2GB RAM recommended, 1024x768 or higher resolution video adapter and display, DVD drive for box product

Windows Vista (Service Pack 2)† 1 GHz or faster, 1GB RAM, 2GB RAM recommended, 1024x768 or higher resolution video adapter and display, DVD drive for box product

Windows XP (Service Pack 3)† 700MHz or faster, 256MB RAM, 2GB RAM recommended, 1024x768 or higher resolution video adapter and display, DVD drive for box product

Mac OS X 10.7† Intel-based Mac, 2GB RAM, 1024x768 or higher resolution video adapter and display, DVD drive for box product

Mac OS X 10.6† Intel-based Mac, 1GB RAM, 1024x768 or higher resolution video adapter and display, DVD drive for box product

† Version stated is the minimum requirement. The software may also work with later versions certified by FileMaker, Inc.

Volume License Purchase Options

FileMaker provides extensive and progressive volume licensing programs that makes it easy for businesses to outfit their workgroups at a reasonable price. To learn more about FileMaker Volume Licensing Programs, contact the FileMaker Volume Licensing Team at: (800) 725-2747.

About FileMaker, Inc.

FileMaker is the leader in easy-to-use database software. Millions of people, from individuals to some of the world's largest companies, rely on FileMaker software to manage, analyze and share important information. The company's products are the FileMaker line - versatile business software for iPad, iPhone, Windows, Mac and the web - and Bento, the personal database for Mac, iPhone and iPad. FileMaker, Inc. is a subsidiary of Apple. For more information, visit www.filemaker.com.

The Top Features in FileMaker Pro 12 Advanced

If you're using FileMaker Pro, you'll appreciate all the great benefits of FileMaker Pro 12 Advanced.

- **Custom Menus** – Create, change, or delete specific menu items or entire menu sets. New! Specify custom menus that display when using an iOS device.

- **Script Debugger** – Pinpoint problem areas in scripts and Script Triggers. New! Turn off Script Triggers when debugging for easier troubleshooting.

- **Custom Functions** – Build your own functions and copy, paste, and import them into any FileMaker Pro database.

- **Multiple Table Import** – Build or modify databases faster by importing multiple tables at once.

- **Data Viewer** – Monitor fields, variables and calculations while troubleshooting.

- **Runtime Maker** – Create standalone runtime solutions that don't require FileMaker Pro.

- **Kiosk Maker** – Build applications where all menus are hidden.

- **External Function Plug-in API** – Build more robust calculations and extend database capabilities.

- **Database Design Report** – Run comprehensive reports on all elements of the database schema.

- **Field & Table Replication** – Copy field definitions into different tables or copy table definitions into other files for faster solution development.

Easily manage your important information in FileMaker Pro 12 Advanced. Create stunning databases with themes, charts, photos, documents, and more.
