# LOGITECH TAP

## TAP INTO BETTER MEETINGS

Logitech's new Tap Room Solutions Bundles include everything you need to easily deploy touch-enabled Google Hangouts Meet, Microsoft Teams Rooms, or Zoom Rooms video conferencing in any size meeting room. With calendar integration, instant content sharing, and always-on readiness, these bundles include all the components you need and are pre-configured with room optimized software from Google, Microsoft, or Zoom. Designed as a simple touch-to-join meeting controller, Tap delivers reliable convenience in the meeting room by enabling frictionless user experience for joining video meetings.

See for yourself how easy it is to start a meeting with **Logitech Tap**.

### Innovation on TAP

Featuring a 10.1" touchscreen, HDMI input for content sharing, and robust cable retention, Tap is designed for reliable convenience in the meeting room. Tap uses DisplayLink technology that connects via USB to the in room computer.

Tap also includes Logitech's 10M Strong USB cable that is plenum and ECA rated for in wall, conduit, and ceiling installations. With table, riser, and wall mounting options, Logitech Tap offers tremendous placement flexibility for various room sizes and layouts, integrating beautifully into the modern workplace.

## CLEAR THE TABLE, HIDE THE CABLE

The new Logitech Strong USB cable lets you position Tap up to 25 meters (82 feet) from the meeting room computer.

### LOGITECH STRONG USB

Plenum- and Eca-rated for in-wall, conduit, and ceiling installations

10m (32.8 ft) Logitech Strong USB cable included with Logitech Tap

25m (82 ft) lengths available for longer runs and larger rooms

With quality components, commercial-grade cabling, and innovations that deliver a better user experience, Logitech Tap Room Solutions make it easy to deploy professional video conferencing throughout the workplace.

Contact your account manager for more information on how Logitech Tap Bundles transform any meeting room into a professional video collaboration space.
