Oracle Solaris Premier Subscription for Non-Oracle Hardware Global Price List

March 1, 2019

	Annual Subscription	Metric	Notes
Subscription			
Oracle Solaris Premier Subscription for Non-Oracle Hardware (1-4 socket server)	1,200	Socket	1
Oracle Solaris Premier Subscription for Non-Oracle Hardware (5+ socket server)	2,400	Socket	1

Oracle Solaris Premier Subscription Footnotes

1 If your order specifies **"1 – 4 socket server"** then you may only use the subscription on a server with not more than 4 sockets. If your order specifies **"5+ socket server"** then you may use the subscription for servers with any number of sockets.

Subscription Rules

This subscription pricing is non discountable.

Oracle Solaris Premier Subscription for Non-Oracle Hardware per socket: is defined as the right to use the Oracle Solaris programs (as defined below) on hardware not manufactured by or for Sun/Oracle, and to receive Oracle Premier Support for Operating Systems services (limited to the Oracle Solaris programs), for the term specified in the ordering document. "Oracle Solaris programs" refers to the Oracle Solaris operating system and the separately licensed third party technology (as defined below). The Oracle Solaris programs may contain third party technology. Oracle may provide certain notices to you in program documentation, "readme" files or the installation details in connection with such third party technology. Third party technology will be licensed to you either under the terms of this agreement, or if specified in the program documentation, "readme" files, or the installation details, under separate license terms ("separate terms") and not under the terms of this agreement ("separately licensed third party technology"). Your rights to use such separately licensed third party technology under the separate terms are not restricted in any way by this agreement.

This subscription is available only for a server that is certified by Oracle and listed on the Hardware Compatibility List (HCL) for Solaris Support at http://www.oracle.com/webfolder/technetwork/hcl/index.html. You must obtain a subscription license for each socket in the server. The subscription term is effective upon the effective date of the subscription ordering document, unless otherwise stated in your ordering document. If your order was placed through the Oracle Store, then the effective date is the date your order was accepted by Oracle. Oracle Premier Support for Operating System services are provided under the applicable technical support policies in effect at the time the services are provided. At the end of the specified term, you may renew your subscription, if available, at the then current fees for this subscription.

Definitions

Socket is defined as a slot that houses a chip (or a multi-chip module) which contains a collection of one or more cores. Regardless of the number of cores, each chip (or multi-chip module) shall count as a single socket. All occupied sockets on which the Oracle program is installed and/or running must be licensed.
